Methodology and Quality

The Livestock Statistics Publication presents the latest data on livestock, poultry, and birds in both traditional and specialized holdings, including information on organic livestock. It also covers the quantity and value of animal product exports and imports, the value of livestock loans, and data by administrative region across the Kingdom. This Publication relies on data from the comprehensive agricultural survey conducted by the General Authority for Statistics, as well as records from the Ministry of Environment, Water, and Agriculture, the Agricultural Development Fund, the Zakat, Tax, and Customs Authority, and the Saudi Central Bank.
